If you have insurance requirements, please have your renewal or risk details to hand and call BHP Insurances on **Lo-call 1890 666 111** or email [insure@bhpinsurance.ie](mailto:insure@bhpinsurance.ie)

## Community Forum Insurance Information Pack

## Exclusive Insurance Facility for INCVF Members

In working with community and voluntary organisations we recognised that the single biggest headache most groups faced was insurance, with insurance costs putting pressure on many groups, and leaving others unable to continue their much valued activities. As such we worked with BHP Insurances Ltd., who are leading insurance brokers in the Community, Voluntary and Charitable Sector, and RSA, one of the largest Insurers in the Irish Market, to organise an insurance facility which would cut down on paperwork and expense.

The Community Forum Insurance Scheme is fully endorsed by the Executive Committee and is open to all affiliated members and the work done by the INCVF was welcomed by The Taskforce on Active Citizenship, who recommended that it be promoted widely among relevant organisations and groups.

## Current groups covered on the INCVF / BHP Insurance Scheme receive average premium savings of 56%

This exclusive facility provides liability, property and all other required covers for a wide variety of groups and activities which includes but is not limited to:-

- Childcare / Community / Resource Centres
- Community / Enterprise Centres
- Development Associations / Tidy Towns / Residents Associations
- FAS / Local Employment Schemes
- Support / Welfare Associations
- Community Playground
- Defibrillator Groups
- Festival's / Patrick's Day Parades / Regattas
- Youth Groups
- Cultural / Drama / Arts / Musical Groups
- Sports / Rowing Clubs
- Social Groups

## Insurance Scheme for Community Forum

We believe that the Community Forum Insurance Scheme provides the protection of an insurance scheme for voluntary & charitable organisations where there is a consistency with premium, and the cover provided is specific to the needs of this sector. The sector in return provides us with a great loyalty to the scheme which ensures the continuance of low premiums.

## Success stories to date:

### Gaelscoileanna Teo

Gaelscoileanna Teo, Dublin got a quote on the Community Forum Insurance Scheme for their insurances which they were delighted with as it saved them money that could be put to use elsewhere in the organisation, they then received the news that they were the 2000th customer and would receive a cheque to cover the cost of their insurance. Clare Walsh accepted the cheque on behalf of Gaelscoileanna Teo (pictured) and she summed it up with a very appropriate Irish saying meaning that we live in the protection of each others' shadows: **'Ar scáth a chéile a mhaireann na daoine'**

### Bonane Heritage Park

Bonane Heritage Park, Co Kerry came on cover on the scheme in August 2006 and at the time could not get insurance cover to develop a heritage park in the Bonane area. Since starting the development they are now up and running and subsequently won the Kerryman Awards / Heritage & Environment section in 2008 and also Pride Of Place also in 2008. During the launch of the Kerryman Awards 2009 luncheon, Patrick O'Sullivan stood up and said that if it was not for the Community Forum Insurance Scheme they would not be active today.

### Linenhall Arts Centre

Marie Farrell from Linenhall Arts Centre, Mayo was delighted with the significant savings made in premiums since joining the scheme in '06 and in particular refers to the fact that they do not need to notify us of all their various activities carried out in the centre during the year as they are automatically covered under their insurance policy. She also commented on the fact that the premiums have never increased over the 4 years they have been on the scheme.

### Claremorris Community Radio

Eddie Sweeney from Claremorris Community Radio, Mayo was happy with the service that the Community Forum Insurance Scheme provided for his community radio station. "It was reassuring to have an Insurance Scheme that understood our needs and were able to advise us on the insurances we needed to protect our radio station from possible claims in the future".

The radio station that listens to you.
